

## Teachers & Staff

Our preschool staff family is carefully selected on the basis of their educational background, experience, and suitability to work with young children. We continuously participate in staff development through workshops and conferences to keep our teachers up to date and well-informed.

Our student to teacher ratio meets or exceeds North Carolina and NAEYC recommendations.

Each classroom has a lead and an assistant teacher in compliance with state mandated ratios and policies of The Episcopal Church.

Parents are always invited to volunteer time where appropriate in the classroom and the school. We welcome your visits and questions, and we hope that you will allow us to nurture your children during this very special time in their lives.

*"Children are a gift from the Lord."

# Our Philosophy

Recognizing that a child's first four years are the most formative, St. Martin's preschool program provides a creative learning experience in a loving environment that encourages each child to develop at an individual pace.

Our curriculum is based on "experiential learning," which recognizes that children learn through play and active involvement with people, materials, ideas, and events. Children are given opportunities to explore, experiment, ask questions, make friends, and develop a true feeling of security and independence. Our aim is to nurture each child's natural curiosity and instill a love of learning.

Our children are supported through an orderly, well-planned day led by loving professionals, which allows us to share in each child's discoveries and rejoice in their triumphs.

St. Martin's Episcopal Preschool is a faith-centered program and a part of the daily life and ministries of the church, emphasizing God's love for each of us. We serve families, regardless of race, religion, or social-economic status, celebrating cultural diversity as part of the curriculum.
